Digital Input and Relay Controller

HUBBOX
RC1 RELAY CONTROLLER

Expand your input reading and output relaying capabilities on production line

PRODUCT HIGHLIGHTS

Simple
Streamline your Industrial projects with plug-in terminals, enabling quick and secure connections without donwtime

Robust
RC1 connects seamlessly with all devices using MODBUS TCP, elevating your system to Industry 4.0 standarts

Cost Effective
Reduce cost and maximize efficiency with 10 digital inputs and 8 relay outputs, perfectly suited for diverse applications
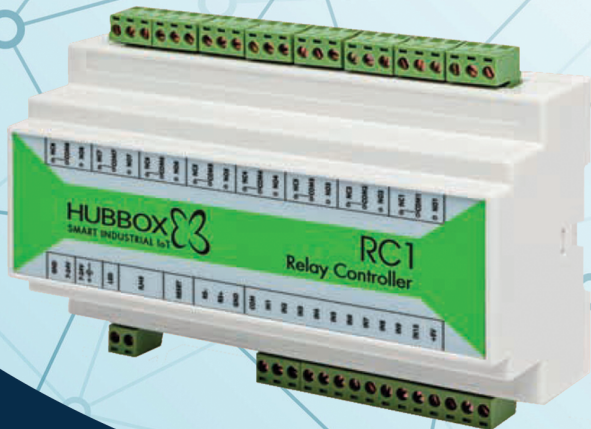

ABOUT US
Swiss Access Solutions empowers businesses with innovative industrial connectivity devices, streamlining remote access, IoT integration and data analytics for smarter and more efficient operations

ISO 9001:2015   ISO 27001:2017   CE   FC

HUBBOX
RC1 RELAY CONTROLLER

Technical Specifications	
Product	RC1
Power	DC 7 - 24V
Number of Relay Outputs	8 (10A 230V)
Number of Digital Inputs	10 (DC 5 - 12V)
Network	10/100 Mbps Ethernet
Communication Protocol	MODBUS TCP
Box Type	DIN-mountable Plastic Box
Operating Temperature Range	-40 to +85 °C
Terminal	Plug-in Terminal (5.08 mm)
Product Dimensions (unpacked, mm)	160x115x60
